## NOTICE TO OUR CUSTOMERS REGARDING TELEVISIONS AND COMPUTER MONITORS

Recently, there has been a change in the recycling industry regarding electronics. Electronic vendors are now charging for the disposal of unwanted televisions and related computer monitors. Unfortunately, due to the increased costs related to disposing of these items, ARCollection Services is **now charging \$0.20/lb. for the disposal of televisions and computer monitors** effective November 1, 2014 . This excludes all modern flat screen models, they will continued to be accepted free of charge. Television and computer monitor disposals will only be accepted at our West Main Street Road, Batavia Transfer Station, and SHOULD NOT be included in our bulk pickup for curbside customers. Our apologies for any inconveniences. We appreciate our many loyal customers and we will continue to offer the best services at the lowest cost possible.

## QUESTIONS?
